CASE STUDY
PREVENTING SECURITY ATTACKS

Strengthening Cybersecurity, everywhere

https://www.montymobile.com/

Executive Summary

Monty Mobile has built an unmatched threat defense solution! Security intelligence now spans across the network, endpoint, DNS, email, and everything in between.

"*By deploying a complete security architecture with integration between different components, our level of security defense, management and visibility have gone up significantly*" *said Hossam Shehab - IT Manager at Monty Mobile.*

Challenges

o   Evolving security threats in addition to the rise in attacks via emails & web
o   Un-known malwares that cannot be detected by legacy security solutions
o   Safeguarding sensitive data
o   Protection of remote users
o   Lack of visibility and incident response

SOLID NETWORK
Member of ICC Group

CISCO
Partner
Multinational Certified Partner
Premier Certified

Solution

Monty Mobile deployed a best-in-class security solution by combining multiple integrated products from Cisco, including NGFW, umbrella, AMP and Email security. Moreover, Monty Mobile assured unified visibility and cross products analytics using Cisco SecureX.

Results and Return on Investment

o Integrated stronger protection across the network, cloud, Internet, email, and endpoints

o Visibility, investigation and faster response to advanced threats

o Secure remote workforce

o Data safety and business continuity assurance
